About Us

Hey! We're VGDev, and we love to make games. Each semester we make 6 games across a variety of different genres with many awesome people working on them! We also have social events throughout the semester to have fun and get to know each other. Don't miss out!

We need you!

- We need artists, programmers, musicians, and people with cool ideas for designing the games!
- If you think you would have fun doing any one of these, you should check us out!
